Whitewater Junior Club Development Program

12-Week Program | Co-Ed | Ages 11–16

This fun and active program is designed for junior golfers who already have some basic golf experience. Over 12 weeks, participants will receive weekly coaching at the driving range, short game areas, and spend lots of time playing on the course.

Golfers will build on their knowledge of the game by learning how to keep score, understand the rules and etiquette of golf, and get introduced to the golf handicap system. The program offers well-rounded coaching in all areas of the game—from full swings to putting to playing actual holes on the course.

Since on-course play is a big part of the experience, participants must be able to carry or push their own clubs and move comfortably around the course and practice areas.

Coaches will organize groups based on age and skill level. For example, newer or non-competitive golfers will be grouped separately from more experienced or competitive players—so everyone learns at the right pace and has a great experience.
